

# The Garden Club of York

Charter Member of the Garden Club Federation of Pennsylvania

*"making York beautiful since 1922"*

The Garden Club of York values our relationship with community not-for-profit partners – civic organizations, youth and church groups - in building a blooming and environmentally 'green' York. It is our goal to support York with beautification projects. We are excited that other organizations recognize the positive impact that we have made in making gardening more available to our residents while presenting a welcoming and vibrant vision to those passing through our city. We strive to educate and plant to stimulate and develop the joy of gardening.

As a first step in determining if this would be a good partnership, please provide us with the following information regarding your proposed project. Please note that the Garden Club is not in a position to maintain gardens for other organizations or partners.

---

1. Name of requesting organization:

:

2. Project start date:

3. Project completion date:

4. Type of assistance requested:

consultant  plant donation  planting assistance  other
