

The Garden Club of York values our relationship with community not-for-profit partners – civic organizations, youth, and church groups – in building a blooming and environmentally “green” York. It is our goal to support York with beautification projects. We are excited that other organizations recognize the positive impact that we have made in making gardening more available to our residents while presenting a welcoming and vibrant vision to those passing through our city. We strive to educate and plant to stimulate and develop the joy of gardening.

As a first step in determining if this would be a good partnership, please provide us with the following information regarding your proposed project.

PROJECT REQUEST FORM

1. Name of requesting organization:

Address:

Phone #:

Name of person representing the organization:

Cell #:

Email address:
